“PLUTARCH’S UNEXPECTED SILENCES”

*Second Meeting of the North American Sections
International Plutarch Society*

ABOUT OUR TOPIC

“Plutarch’s Unexpected Silences” asks us to consider those times in the Parallel Lives or Moralia when we are surprised that Plutarch does not say something, or when he leaves something out. Whether this occurs by mistake or by design in Plutarch’s work, we propose focusing on those passages that foil our expectations or whose silence invites a closer examination. We would also like to consider other odd omissions, perhaps of authors or works, or places even, that Plutarch might be expected to know, or even suspected of knowing.

ABOUT THE EVENT

The second meeting of the North American Sections of the International Plutarch Society will take place 15-18 May 2019 at Utah State University in Logan, Utah. Logan is ninety minutes north of the Salt Lake City International hub airport and convenient to many national parks and other attractions. Plenary sessions will examine the topic of “Plutarch’s Unexpected Silences” in tranquil and beautiful mountain settings as we conclude our meeting in the former mining town of Park City, Utah.
